

Participant list: Shishir Kumar (Host, me), Sonali Kumari, Ajit Rana, mohitt, ranjan kumar. Includes a 'Layout' button.

Sharing DOS External C...

DOS External Commands

Unlike the DOS internal commands, which are loaded into primary memory (ram) along with COMMAND.COM at boot time, the DOS external commands are disk-bound. This means they must be fetched from secondary memory (disk) and loaded into primary memory (ram) each time they are used.

FORMAT.EXE, CHKDSK.COM, and DISKCOPY.EXE are three examples of external commands. Their syntax follows.

FORMAT

Prepares a diskette for use by DOS.

Participants (6) list: Shishir Kumar (Host, me), Ajit Rana, mohitt, ranjan kumar, Shubham Kumar, Sonali Kumari. Includes search bar and mute/unmute controls.

Meeting controls: Mute, Start video, Share, Record, and a red 'X' button.
